

EPIC[®] SHIELD[™]+ SiO₂ WATERLESS WASH & WAX (2620)

DESCRIPTION

EPIC[®] SHIELD[™]+ SiO₂ Waterless Wash & Wax with Graphene is a safe and effective car wash spray that requires no water, bucket, hose, or sponge. It is a great solution for areas with water restrictions. EPIC[®] SHIELD[™]+ SiO₂ Waterless Wash & Wax with Graphene utilizes detergents, SiO₂ sealant, and silicone wax enhanced with graphene to leave a rich, lustrous shine.

DIRECTIONS

SHAKE WELL BEFORE USE. For the best results, use plenty of clean, soft, edgeless microfiber towels. Apply to a cool, dry surface in the shade. Spray a light mist of EPIC[®] SHIELD[™]+ SiO₂ Waterless Wash & Wax with Graphene to a section of a body panel. Using a clean, soft, edgeless microfiber towel, spread product over the surface to create a thin, uniform layer of product on the surface. Using a separate clean, soft, edgeless microfiber towel, remove any excess product and buff section to a dry, high gloss shiny finish. Repeat this process for the rest of the vehicle.

FEATURES AND BENEFITS

No water needed	Great for use in water-restricted areas and quick detailing when water is not available.
Penetrates to remove dirt, grease, and grime	Safe to use on paint, glass, metal, and plastics.
Formulated with detergents, SiO ₂ sealant, silicone wax, all enhanced with graphene.	Leaves a shiny, high-gloss finish.

PACKAGE SIZES

- Case of 6 – 16 oz. (Part number: 262016)
- Case of 4 - 1 gallon (Part number: 262001)

PRODUCT FAQs

Q1: What is a waterless car wash?

A1: A waterless car wash is a high lubricity spray detailer that is used to heavily saturate a panel and then carefully wipe any dirt or road grime off to a dry shine. It is a quick and easy solution to clean a car and leave a shiny and smooth, wax-like finish.

Q2: Why use a waterless car wash?

A2: Waterless Car Wash is a great solution for areas with water restrictions or water rationing. A waterless car wash should be used anytime you want to clean your car but do not have access to running water.

Q3: Is EPIC[®] SHIELD[™]+ SIO2 WATERLESS WASH & WAX safe to use on all exterior vehicle surfaces?

A3: EPIC[®] SHIELD[™]+ SIO2 WATERLESS WASH & WAX is safe to use on paint, glass, metal, and plastics.

Q4: What is the benefit of graphene in EPIC[®] SHIELD[™]+ SIO2 WATERLESS WASH & WAX?

A4: Graphene is an advanced technology that creates a hydrophobic barrier to help repel water and dirt from a vehicle's surface. The end result is a surface with enhanced gloss and long-lasting protection from environmental contaminants.

Q5: How do you properly use a waterless car wash?

A5: Waterless car washes are generally safe for your car's paint. However, it is important to take certain precautions. When using a waterless car wash, heavily saturate the vehicle surface. Always use clean microfiber towels to prevent cross-contamination and scratching. It is highly recommended to use the product on one panel at a time.

After spraying, fold your microfiber towel in half and then in half again. After using all sides of the towel, get a fresh, clean microfiber towel to avoid transferring dirt from one panel to another panel. Note: Use different towels for your wheels and glass surfaces. In particular, wheels have more embedded debris that can damage paint.

THE DETAILING CHOICE OF THE PROS®

TECHNICAL DATA SHEET

Q6: Can EPIC® SHIELD™+ SIO2 WATERLESS WASH & WAX be used on vehicles with heavy dirt and grit accumulation?

A6: EPIC® SHIELD™+ SIO2 WATERLESS WASH & WAX is recommended to be used on vehicles with light dirt accumulation. It is not recommended for vehicles with moderate to heavy dirt and grit accumulation as surface marring/scratching may occur.

Q7: What is the difference between a waterless car wash and a rinseless car wash?

A7: A waterless car wash, as its name implies, is used to clean a vehicle surface without the use of water. A rinseless wash involves using a small amount of water with the solution to clean a vehicle.
